

Transportation Improvements – Florida at Work

Henedon Avenue Bridge, City of Miami Beach

Project Summary

The Henedon Avenue Bridge #876721 was built in 1950. The bridge is located in the Biscayne Point Neighborhood in North Beach, and connects Daytonia Road to Cleveland Road. A bridge inspection report rated the Henedon Avenue Bridge with a sufficiency rating of 50.8. Sufficiency ratings determine the functionality of the bridges and range between O and 100, with a rating of 100 assigned to a new bridge. Other factors are also considered when determining the condition of a bridge, such as its load capacity and whether it is deemed structurally deficient. This project proposes to rehabilitate the Henedon Avenue Bridge. Repairs will be made to the deck underside, spalls and delamination along beams, spalls along abutments, and to the bridge rail.

Fast Facts

This project will provide for a safe and secure bridge for motorists, bicyclists, and pedestrians.

Costs:

Construction/Inspection-

\$325,496

Project Total - \$325,496

Jobs Created/Supported

Estimated: 12-16
